Summary

- Product Designer contributing to 30+ digital initiatives across enterprise applications, customer platforms and operational dashboards.
- Skilled in product discovery, UX research, interaction design and prototyping. Experienced in driving end-to-end design and collaborating with cross-functional teams to deliver user-centric solutions.

EXPERIENCE

UI UX DESIGNER — **March 2024 - Present**
Sumadhura Infrocon Private Limited

Driving product design across 30+ digital initiatives, transforming business requirements into digital experiences for enterprise applications, customer platforms and operational workflows.

- Requirements Gathering & Analysis - Collaborate with Management, CRM, operations and engineering teams to understand challenges, gather requirements and define product solutions.
- UX Planning & Documentation - Develop information architecture, user journeys, task flows, wireframes and design documentation to translate business needs into structured experiences.
- Product & Interface Design - Create intuitive, responsive interfaces and interactive prototypes for internal applications and customer-facing platforms.
- Experience Improvement - Identify usability gaps and refine existing workflows, navigation and task flows based on research, user feedback and observations.
- Dashboard & Data Visualization - Design dashboards, KPI tracking interfaces and data visualizations to improve operational visibility and information accessibility.
- Design Leadership - Guide junior UI/UX designers, assign design tasks and review deliverables to maintain design quality and consistency.
- Development Handoff & QA - Prepare design specifications, collaborate with developers, validate implemented interfaces and coordinate fixes and post-launch improvements.

Selected Impact

- Digitised visitor & Vehicle workflows, streamlining check-ins and making visitor activity and customer interaction records easier to track.
- Transformed manual operational processes into structured digital workflows.
- Improved access to operational information through dashboard design and data visualization.
- Supported product implementation and continuous improvement through design validation, user feedback and cross-functional collaboration.

Graphic Design Intern **Oct 2023 - Jan 2024**
2Gethr

- Created promotional posters, email creatives and internal communication materials using visual design principles.
- Independently developed a WordPress website and collaborated with the design team on web and communication requirements.
