Summary

Product Designer contributing to 30+ digital initiatives across B2B SaaS, enterprise applications, and customer-facing platforms. Skilled in translating complex business challenges into intuitive digital experiences through UX research, interaction design, and prototyping. Experienced in end-to-end design ownership, cross-functional collaboration, and product implementation.

EXPERIENCE

UI UX DESIGNER

March 2024 - Present

Sumadhura Infracon Private Limited | Bangalore, India.

Contributing to product design across 30+ digital initiatives, including enterprise applications, CRM workflows, operational management systems, and customer-facing platforms.

- **Product Discovery & UX Strategy -** Collaborate with management, CRM, operations, and engineering teams to identify business challenges, gather requirements, and translate complex operational needs into user-centered product solutions.
- **End-to-End Product Design -** Independently drive design initiatives from UX research and information architecture to user flows, wireframes, interactive prototypes, and implementation, focusing on usability and business requirements.
- **Workflow Optimization:** Digitize manual processes, optimize enterprise workflows, and design operational dashboards to improve information accessibility, reporting, and business decision-making.
- **Cross-Functional Collaboration & Design QA -** Partner with developers, QA teams, and stakeholders to prepare design specifications, validate implemented interfaces, resolve usability issues, and maintain design consistency.
- **Product Implementation & User Adoption -** Support product rollouts, train site managers, store managers, and security teams, and incorporate end-user feedback into continuous product improvements.
- **Design Guidance:** Guide junior UI/UX designers through design reviews, task coordination, and feedback to maintain interface quality and consistency.

Graphic Design Intern

Oct 2023 - Jan 2024

2Gethr | Bangalore, India

- Designed promotional posters, email creatives, and internal communication materials using visual hierarchy, typography, and brand guidelines.
- Independently developed a WordPress website and collaborated with the design team on digital communication requirements.
